

“Stacey’s Not A Girl” is a children’s book that takes us on a gender journey with Stacey who does not feel like a girl, but is not so sure they are a boy either. This book introduces us to ideas of gender beyond the binary and makes space for the “not knowing”. The first book of it’s kind with all Transgender contributors–author, illustrator, and designer– Stacey’s story weaves in elements from each contributor as well their close friends and family.
