

We're excited to share our second Gender Spectrum Story Time, featuring Brook Pessin-Whedbee, author of [*Who Are You? The Kids Guide to Gender Identity*](#).

This is a wonderful non-fiction book which helps anyone 3+ years-old to understand and celebrate gender diversity, with straightforward language for talking about how we experience gender: our body, our expression, and our identity.

Enjoy the two-part story time hosted by Sandra Collins, founder of the [Bay Area Rainbow Day Camp](#) and Executive Director of enGender. In the first video, which is for children, Brook reads the book and shows the kids how to use the interactive Gender Wheel that comes with every book.

In our second video, geared towards adults, Brook reads through the book again, giving more information about how adults can use the book to spark discussion about gender with kids, followed by a discussion between Sandra and Brook about the book.
