Gender Spectrum offers comprehensive programs and resources to create more gender inclusive schools. This work supports not only the specific needs related to Transgender students, but the entire school community.

Working collaboratively with school communities, our mission is to create safe climates in which all students can thrive as they grow and learn. Partnering with the school's leadership to craft a sequence of activities tailored to each site's context and community, our collaboration will ultimately lead to deeper understanding about gender, children and youth, and the necessary skills for schools to take action accordingly.

Interested in hosting a training at your school or district? Please contact us at info@genderspectrum.org and we'll reach out to you as soon as we can.
